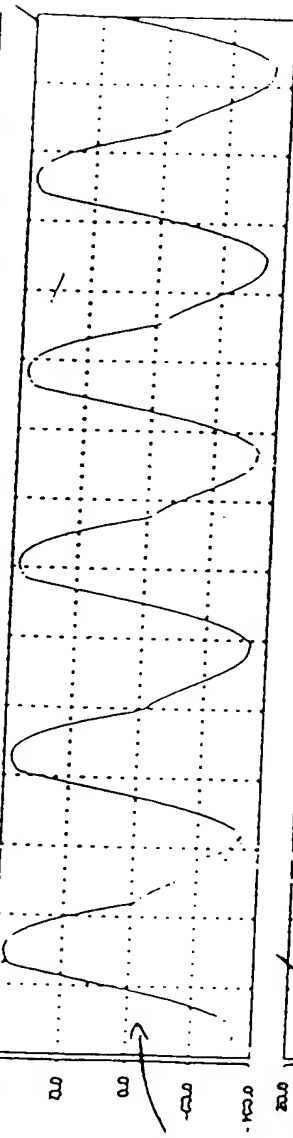

FIG. 3D

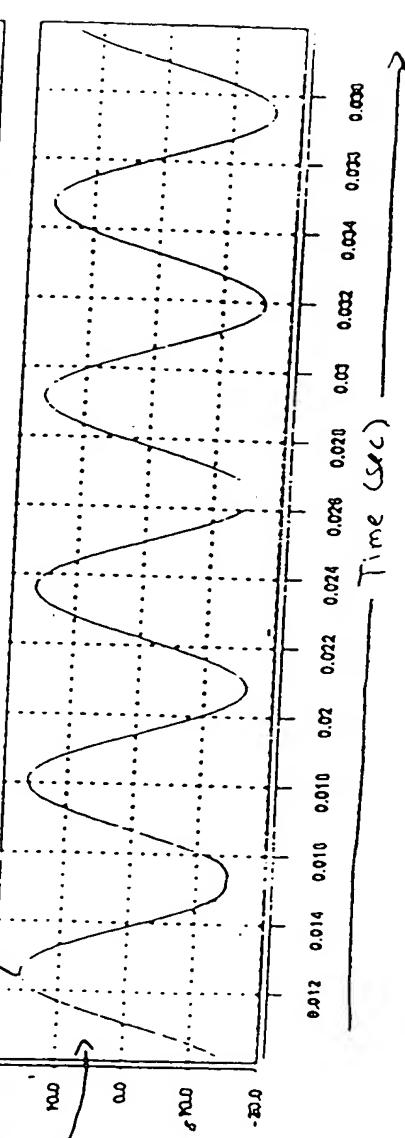

Figure 1 consists of 12 scatter plots, labeled (a) through (l), arranged in a 4x3 grid. Each plot shows the relationship between the number of children (N) on the y-axis and the number of children per mother (M) on the x-axis. The data points are represented by open circles. The plots show a general trend of decreasing N as M increases, with some variation in the slope and intercept of the trend line across different studies or conditions.
